## 1 Introduction

These Release Notes describe the latest updates to compareDocs 4.0. DocsCorp recommends that you read these Release Notes in conjunction with the documentation included with the software package. If any conflicts, the Release Notes supersede the other documentation.

We also recommend that you check the DocsCorp [Knowledgebase](#) and [Partner](#) or [Client Portal](#) for any patches or documentation updates that may have been posted after the initial release of compareDocs 4.0.

## 2 What's New

**Modern Interface** – The clean, uncluttered compareDocs 4.0 interface is designed for productivity and usability. It's Microsoft Office 2010/13 look and feel makes it an intuitive and easy product to use, requiring very little training to adapt from earlier versions or if you are new to the product

**PDF companion** – The PDF companion is now provided to allow users to create PDF documents from any application. This is ideal for users who have only an occasional need to create PDF's

**New DocsCorp PDF printer** – All DocsCorp products are now sharing a common printer. This means the compareDocs PDF printer is removed with the installation of compareDocs 4.0. All PDF operations now use the DocsCorp PDF printer

**Faster Speeds** – Launch speeds for compareDocs have been improved significantly. Users will notice speed improvements by as much as 200% Comparison speeds have also been improved. For example, some 500 page documents previously took up to 40 seconds to compare. This now takes 10 seconds.

**Track Change output** – User can choose to output the comparison in a new Track changes document format, allowing better ability to accept/reject the changes and continue using the document as the go forward version. Main area impacted by this option are List numbers, cross reference fields and tables.

**Automated uninstallation** – compareDocs will now automatically uninstall older versions of the product during installation. This means there is no longer the requirement to uninstall old version of compareDocs before installing new version. This simplifies the upgrade process.

**Windows 8 / Office 2013** – compareDocs continues to be compatible with the latest operating system and Office versions.

**PDF comparisons** – Product a redline style comparison of 2 compared PDF's output as a PDF. This one click option uses OCR technology to convert the PDF's to Word for comparison, then as a last step converts the comparison output back to PDF.

**OCR Language chooser** – Reduce OCR'ing errors when working with foreign languages. Specify the languages in your document using the new OCR language chooser. Supports 180 languages including Asian languages

**Integration updates** – There have been many updates to DMS's that compareDocs integrates with in the last year. compareDocs is compatible with latest versions of HP Worksite, Open Text eDocs, Worldox, NetDocuments, ProLaw, SharePoint.

**Bug fixes and improvements** – various document specific bug fixes and improvements

## 3 Installation and Upgrade Notes

### 3.1 System Requirements

#### Processor

- Intel Core 2 Duo 2.4 Ghz or faster

#### Operating System

- Microsoft® Windows® 7 (32-bit and 64-bit)
- Microsoft® Windows® 8 (32-bit and 64-bit)
- Microsoft® Windows Server® 2008 or 2012
- Supports Citrix XenApp/XenDesktop/Terminal Services

#### Memory

- 2GB or higher

#### Hard Disk

- Approximately 3 GB of available hard-disk space for installation and up to an additional 100MB of working space for files being converted, depending on the size of files being converted.

#### Microsoft .NET Framework 4.5 or 4.5.1

- <http://www.microsoft.com/en-us/download/details.aspx?id=40779>

#### Microsoft Office

- Microsoft® Office® 2013 (32 bit & 64 bit)
- Microsoft® Office® 2010 (32 bit & 64 bit)
- Microsoft® Office® 2007

#### Microsoft Visual C++ 2005 SP1 Runtime

- <http://www.microsoft.com/en-us/download/details.aspx?id=5638>

#### Adobe Reader 9.1 or higher

- <http://get.adobe.com/reader>

## 3.2 Installation parameters (Properties)

During any installation method it is possible to influence the installer behavior by passing property values. Most commonly this is done via the commandline i.e. as parameters to the commandline. For example:

```
msiexec.exe /i "\\server\DocsCorpInstaller\DocsCorp_pdfDocs_compareDocs_4-x-x-x.msi" OCRDESKTOPINSTALL="0" /qn
```

In this case OCRDESKTOPINSTALL="0" is the property being applied. Multiple parameters can be applied on the commandline.

For information on the range of parameters that are available to influence the compareDocs installer please see the ['Installer Guide – MSI Properties'](#)

## 3.3 New Installation

### 3.3.1 Preparing for installation

- Create a directory on your workstation with read/write access called 'compareDocsInstaller' or some other name that you will easily remember;
- Copy the files **DocsCorp\_pdfDocs\_compareDocs\_4-x-x-x.msi** (where x-x is the version number) and **dotnetfx.exe** to this directory from the web download.

### 3.3.2 Standard installation process

#### Installing onto a workstation

compareDocs requires the Microsoft .NET Framework 4.5 and compareDocs to be installed locally onto your workstation. You usually need Administrator rights to the workstation to install software.

- Install Microsoft .NET Framework 4.5 on your workstation. Follow all prompts and restart the workstation if advised to do so;
- From the same directory, please install compareDocs by double-clicking the program **DocsCorp\_pdfDocs\_compareDocs\_4-x-x-x.msi** (where 4-x-x-x is the version number);
- Follow the installation wizard steps carefully. When asked to nominate a 'Destination Folder' to install compareDocs, you can accept the default (generally 'C:\Program Files (x86)\DocsCorp\pdfDocs compareDocs') or choose an alternate directory, but this location must be on the 'local' hard drive – not a network drive.

**NOTE:** Normally, a restart of the machine is not required, but if the installation wizard instructs you to restart, you must do so before using compareDocs.

#### Setting license information

From a workstation with compareDocs installed, open compareDocs:

- Select [Start] → [Programs] → [DocsCorp] → compareDocs;

- Select [Cog] → [About] → [Set License]. Enter your 'Licensed to' name details as well as your 'License Number' and press [OK] to accept the license number. You can now close compareDocs.

### 3.3.3 Terminal Server/Citrix installation process

Once you have downloaded and/or copied the latest installation file into your compareDocs 'Installer Location' (e.g. C:\compareDocsInstaller), please follow the steps below:

- To correctly install the latest version of compareDocs, **please ensure that ALL users are logged out** of Terminal Server/Citrix prior to performing the steps below:

**NOTE:** Following the steps below will ensure that a restart of the server **will NOT be required** when installing.

- Log onto the server as an Administrative user;
- Click on [Start] → [Control Panel] → [Add or Remove Programs];
- Click on [Add New Programs];
- Browse to the compareDocs 'Installer Location', select '**DocsCorp\_pdfDocs\_compareDocs\_4-x-x-x.msi**' and click on [Open];
- Click on [Finish] to proceed with the installation;
- Follow the prompts to complete the installation of pdfDocs compareDocs on the Terminal Server/Citrix Server;
- Upon completion of the upgrade, users can now safely log back into Terminal Server/Citrix.

All users will now have access to the latest version of compareDocs.

#### **Controlling Access to compareDocs**

compareDocs will be available to all users on the server, however the users that are first to start compareDocs will be allocated a license. In the case where there are a smaller number of licenses than actual users entitled to use compareDocs on your server and network, you will need to manage who can access compareDocs on the server.

The recommended method of restricting users from compareDocs is to copy the compareDocs program shortcut to the Program groups and Desktops of specific compareDocs **User** profiles. Once complete, remove the compareDocs program shortcut from the **Program** group and Desktop from the **All Users** profile.

### 3.3.4 Command Line installation process (including SCCM)

#### **Installation**

Using the command line below, compareDocs can be installed to workstations silently (e.g. no dialog prompts are visible to the user):

- `msiexec.exe /i "\\server\DocsCorpInstaller\DocsCorp_pdfDocs_compareDocs_4-x-x-x.msi" /qn`

**NOTE:** To install compareDocs via command line, but with progress dialogs visible, simply replace the /qn with:

- /qb+ for progress dialogs displaying an OK button to acknowledge completion of the process; or
- /qb- for progress dialogs without an OK button upon completion.

To transform the installer with command line parameters please see our guide - [‘Installer Guide – MSI Properties’](#)

### 3.3.5 Machine Assigned Active Directory installation process

compareDocs can be installed via Active Directory (AD). The instructions below assume the following:

- You have a working knowledge of Active Directory installations and a current working plan for the Organisational Units of your business;
- You know how to create a transform file (MST) if you wish to install to a location other than the default location, being ... \Program Files\DocsCorp\pdfDocs compareDocs; and
- .NET Framework 4.5 has been installed on all workstations (via AD or other means).

**NOTE:** The method of AD rollout described here is ‘computer assigned’. If you wish to roll-out as ‘user assigned or published’ you will need separate instructions. There are differences in the methods. Please request instructions from Support.

#### Steps to deploy

1. Prepare the compareDocs installation file:
  - Create an installer directory on a server that has read/write & modify access for workstations onto which you wish to install compareDocs (e.g. [\\server\company\DocsCorpInstaller\](#));
  - Download to your installer directory the latest **DocsCorp\_pdfDocs\_compareDocs\_4-x-x-x.msi** (e.g. DocsCorp\_pdfDocs\_compareDocs\_4-0-1-29.msi).

**NOTE:** No transform files are necessary for the information of compareDocs.

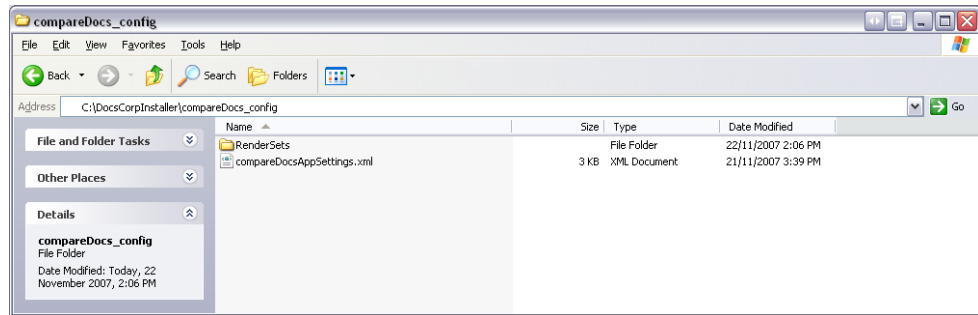

2. Create **compareDocsAppSettings.xml** for default application settings:

The **compareDocsAppSettings.xml** file will contain your license details, as well as any application defaults you wish to be applied to each workstation via AD installation;

- To create the **compareDocsAppSettings.xml** (before you perform AD installations), you should log into one computer as a user with local administrator rights, install compareDocs manually to that workstation from the network DocsCorpInstaller location:
  - Simply double-click on the MSI file and follow the installation wizard prompts to install onto your local drive;
  - a) During this installation process, a file named **compareDocsAppSettings.xml** is created in a folder named

**compareDocs\_config.** This folder can be found in the DocsCorpInstaller directory with the MSI file (refer screenshot below):

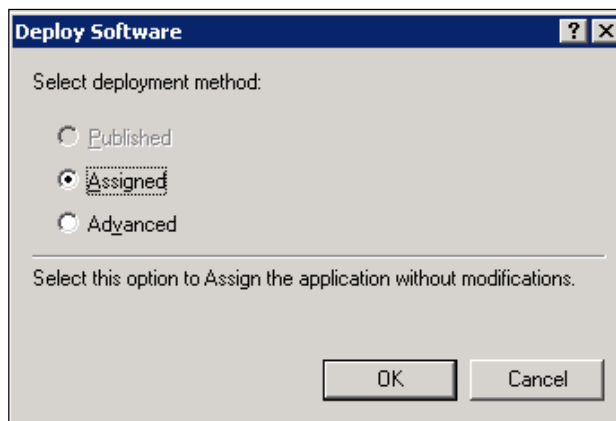

- b) Open **compareDocsAppSettings.xml** and enter your license details where appropriate at the beginning of the document (see example section below):

```
<CompareDocsLicenseName>Name Ltd</CompareDocsLicenseName>
<CompareDocsLicenseKey>xxxx-xxxxx-721470-001-85-
60144</CompareDocsLicenseKey>
```

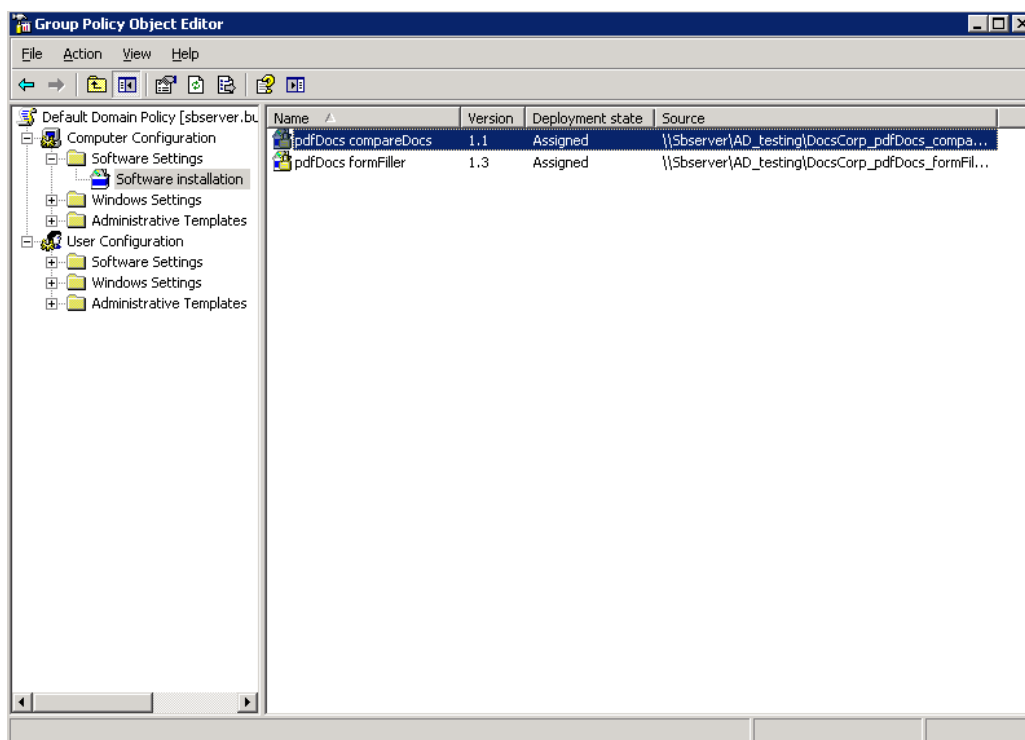

- c) Other default settings are available in **compareDocsAppSettings.xml**, including integrations

### 3. Create the Group Policy Object (GPO):

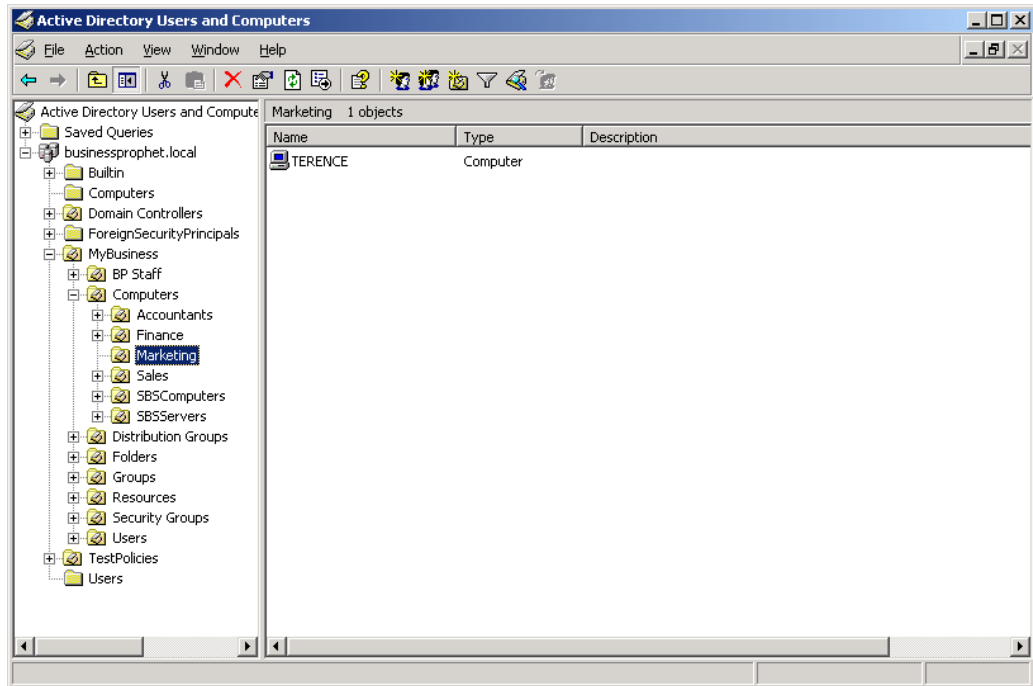

- Open Active Directory – Group Policy Management snap-in;
- Select the Group Policy Objects group;
- Create a new Group Policy Object called compareDocs4-x-x-x (where 4-x-x-x is the current version number);
- Edit the GPO and add a new Package in Computer Configuration → Software Settings;
- Choose the 'Assigned' option:

- Select OK to generate a standard machine assigned package. This is all that is needed for compareDocs:

- Close the compareDocs4-x-x GPO.
4. Apply the Group Policy Object to an Organizational Unit (OU):
    - Right-click on any existing OU that you wish the compareDocs GPO to be applied to;
    - Select 'Link to an existing GPO...';
    - Select compareDocs4-x-x from the list.
  5. Add new member computers to your Organizational Unit (OU) [Optional]:
    - If new member computer requires compareDocs, simply add the computer to an existing OU that has the compareDocs4-x-x GPO applied:

#### 6. Install compareDocs via AD:

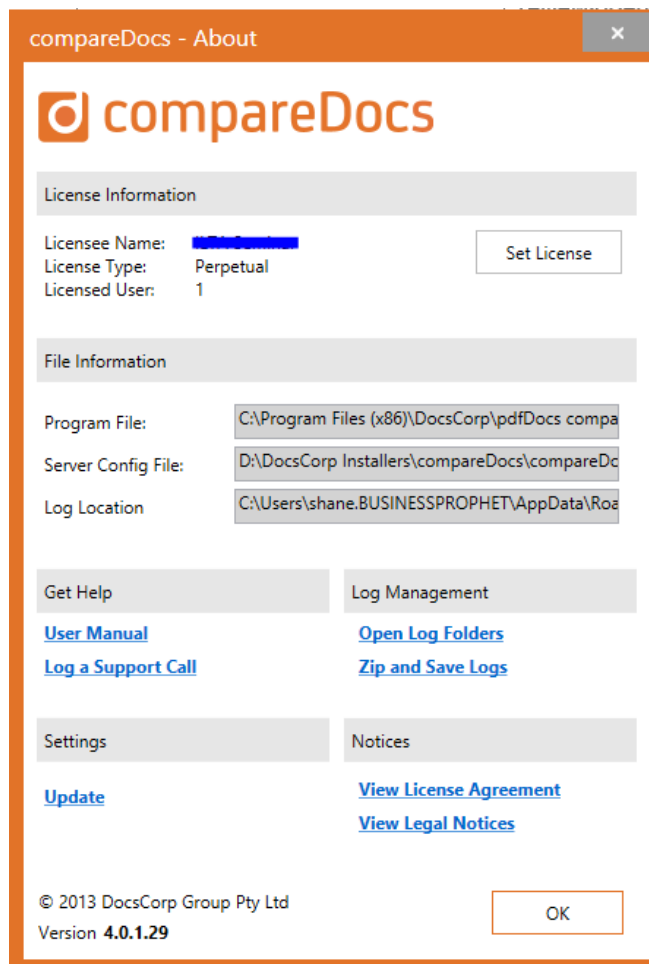

- Simply restart (not just log-off) a computer that is part of an affected OU;
- On restart, compareDocs will be installed prior to the log-in screen being displayed.

## 3.4 Upgrading

### 3.4.1 Preparing for upgrade

Prior to upgrading compareDocs, please follow the steps below:

- Open compareDocs and go to the [Cog] → [About] window :

- Identify your compareDocs 'Installer Location' from the 'Server Config File' folder under File Information; and
- Copy the file downloaded, '**DocsCorp\_pdfDocs\_compareDocs\_4-x-x-x.msi**' (where x-x is the relevant version number), into your installation directory ('Installer Location').

**NOTE:** compareDocs 4.x will automatically remove older versions of compareDocs during installation. The practice of removing older versions before installing the new version is no longer required.

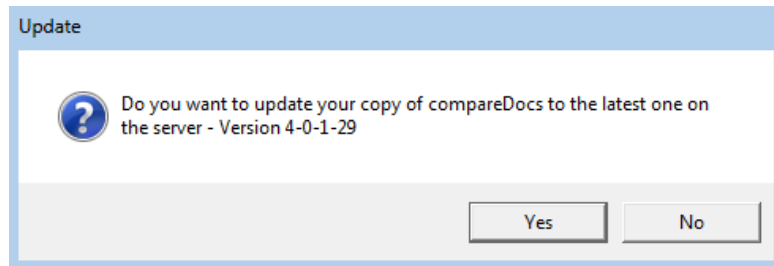

### 3.4.2 Standard upgrade process

#### Upgrading workstations

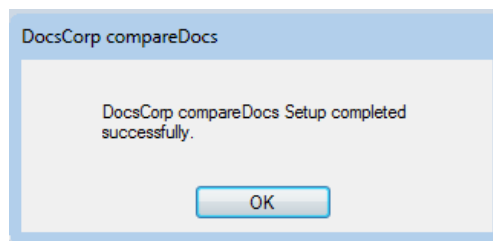

Once you have downloaded and/or copied the latest installation file into your compareDocs 'Installer Location', please follow the steps below:

- On each workstation:

- Open compareDocs and select [Help] → [Licensing];
- Click on the [Update] button and compareDocs will display the following prompt:

- Accept the prompt by clicking on [Yes]. compareDocs will proceed to automatically uninstall the previous version, and install the new version;
- Please wait to be prompted with the following message before proceeding to use compareDocs:

Normally, a restart of the machine is not required, but if the installation wizard instructs you to restart, you must do so before using compareDocs.

#### NOTES:

1. If a manual upgrade is not initiated using the [Update] button, compareDocs will prompt an upgrade upon your accessing the application within 24 hours of the installation file being downloaded and/or copied to the 'Installer Location'; and
2. To enable your upgrading of any software in a Windows environment, the user currently logged in and performing the upgrade must have local Administrator rights to the workstation. If your standard user accounts do not have these rights, then you will need to log onto that workstation as an Administrative user in order to perform the upgrade successfully.

### 3.4.3 Terminal Server/Citrix upgrade process

#### Upgrading Terminal Servers/Citrix Servers

Once you have downloaded and/or copied the latest installation file into your compareDocs 'Installer Location', please follow the steps below:

- To correctly upgrade to the latest version of compareDocs, **please ensure that ALL users are logged out** of Terminal Server/Citrix prior to performing the steps below:

**NOTE:** Following the steps below will ensure that a restart of the server **will NOT be required** when upgrading.

- Log onto the server as an Administrative user;
- Click on [Start] → [Control Panel] → [Add or Remove Programs];
- Upon completion of the uninstallation, click on [Add New Programs];
- Browse to the compareDocs 'Installer Location', select '**DocsCorp\_pdfDocs\_compareDocs\_4-x-x-x.msi**' and click on [Open];
- Click on [Finish] to proceed with the installation;
- Follow the prompts to complete the installation of compareDocs on the Terminal Server/Citrix Server;

**NOTE:** You should install the compareDocs update into its original location, which by default will be ...**\Program Files\DocsCorp\pdfDocs compareDocs**.

- Upon completion of the upgrade, users can now safely log back into Terminal Server/Citrix.

All users will now have access to the latest version of compareDocs.

#### 3.4.4 Command Line upgrade

##### Upgrading script based installations

The upgrading process is basically the same as the new installation process. With compareDocs 4.x and higher compareDocs will automatically remove older versions of the application, so simply install the new MSI to affect an upgrade.

Using the command line below, compareDocs can be installed to workstations silently (e.g. no dialog prompts are visible to the user):

- msixec.exe /i "\\server\DocsCorpInstaller\DocsCorp\_pdfDocs\_compareDocs\_4-x-x-x.msi" /qn

**NOTE:** To install compareDocs via command line, but with progress dialogs visible, simply replace the /qn with:

- /qb+ for progress dialogs displaying an OK button to acknowledge completion of the process; or
- /qb- for progress dialogs without an OK button upon completion.

To transform the installer with command line parameters please see our guide - ['Installer Guide – MSI Properties'](#)

## 4 Fixed Issues

### 4.1 4.0 U3 General Release

Key	Summary
<b>CD-4078</b>	Enterprise license (OCR Desktop) should override other types of licenses

### 4.2 4.0 U2 General Release

Key	Summary
<b>CD-4076</b>	Editing of local rendering sets through Settings is not correctly storing edited values
<b>CD-4075</b>	Word 2013 - not able to 'read/write' to Track Change settings which affects track change output colours if users choose other than default colours in render sets
<b>CD-4074</b>	Incorrect list number markup for merged paragraphs
<b>CD-4073</b>	Invalid license message needs updating
<b>CD-4072</b>	compareDocs crashes in About screen if invalid license in App Settings XML
<b>CD-4056</b>	CD-3478 P - (Document Specific) '206 Conversion to docx failed'. Same message shown by Word 2010 if convert to DOCX manually
<b>CD-4055</b>	CD-3516 P - Word automation should enforce that Word is visible and minimised before doing any actions on Word (conditional on XML setting)
<b>CD-4054</b>	CD-3971 P - Comparison of the documents does not picking up changes when selecting pages with changes only due to different pagination caused by different printers
<b>CD-4053</b>	CD-3426 P - (Document specific) The summary report is missing from the beginning of the output PDF
<b>CD-4052</b>	CD-3875 P - OCR'ing documents with long file names fails with maximum file length exception using OCR Server 3
<b>CD-4050</b>	Problems with OCR form
<b>CD-4049</b>	Spelling mistake on OCR form
<b>CD-4048</b>	compareDocs crashes when trying to 'View Details' a second time
<b>CD-4047</b>	OCR Progress form has wrong icon in taskbar
<b>CD-4044</b>	Change DMS names to match current branding. Only in the visible UI, not in the backend XML
<b>CD-4043</b>	Change 'Word Document 2007 (*.docx)' option in Cog > Output > Save files in this format to 'Word Document (*.docx)
<b>CD-4012</b>	The list number is not marked up correctly. One side case
<b>CD-3902</b>	CD-3525 P - Comparing and emailing a protected document from the Word Ribbon bar fails.
<b>CD-3901</b>	CD-3833 P - Word Addin - 'Path not found' error when %temp%\DocsCorp is deleted.
<b>CD-3800</b>	Change all references for Autonomy iManage to HP Autonomy Worksite
<b>CD-3108</b>	Document the ServerConfigPath registry in the installation guide
<b>CD-3107</b>	Document the Removeuserconfig installer command in the installation guide
<b>CD-2937</b>	Document the need of Visual C++ for PDF comparisons in the compareDocs manual

## 4.3 4.0 U1

Key	Summary
<b>CD-4031</b>	pPrChanges made on paragraphs without any visible list numbers applied
<b>CD-4046</b>	Zip and save logs from compareDocs crash screen is not working on all machines
<b>CD-4041</b>	Debug message appearing when using compare attachments AddIn in Outlook

## 4.4 4.0

Key	Summary
<b>CD-4037</b>	Replace User manual link to file with hyperlink
<b>CD-4035</b>	License behaviour issue due to new Registry license value and XML locations (client and server)
<b>CD-4034</b>	OCR progress window has default .net icon. Needs the CD icon
<b>CD-4033</b>	OCR Desktop / Server setting XML value is not being 'read' into OCR Settings form correctly. It is always showing as OCR Server
<b>CD-4032</b>	OCR Desktop dropdown option in Settings --> OCR should not be available for 601 (601,110) licenses
<b>CD-4030</b>	Show Track Change Formatting Balloon default to change to 'on'
<b>CD-4029</b>	Rejecting all changes results in format loss due to NUMID copied across not having all formatting (esp. para after/before)
<b>CD-4028</b>	Update the Icon of the eDocs progress form
<b>CD-4027</b>	Update the User Agreement text during installation
<b>CD-4023</b>	On fresh install the compareDocsAppSettings.xml (at minimum) is not being deployed to the Installer location as expected
<b>CD-4022</b>	Update button on License (and now on About) is not detecting a new version of compareDocs in the installer location
<b>CD-4020</b>	'save as a new document' into Wordox is hanging compareDocs
<b>CD-4019</b>	(eDocs) Sending documents to compareDocs from eDocs is not working correctly
<b>CD-4017</b>	Amendment to a server render set for Word track Changes due to a setting not being correct
<b>CD-4016</b>	XML option to turn off formatting balloons with LiveDocument output
<b>CD-4014</b>	CD-3910 Conversion to Word UI
<b>CD-4013</b>	MRU exception when an eDocs document has been loaded into the MRU
<b>CD-4011</b>	CD-3910 UI issues and changes - Pages with changes, PDF Security, OCR settings
<b>CD-4010</b>	Licensing window will not accept licenses other than 601, 602
<b>CD-4008</b>	New default for 'OCR' settings - the Preserve original option should be the default in master.xml
<b>CD-4007</b>	Ensure the DocsCorp PDF Printer can be updated for future products
<b>CD-4006</b>	CD-1912 P - [Asian Document] Content is marked as changed when it should be sameness.
<b>CD-4002</b>	Deleted content has all condensed into a single paragraph and taken on incorrect styling (see image to understand)
<b>CD-4001</b>	DocsCorp PDF printer - change default for WORD to PDF to print with full markup (including track changes). Currently it is printing 'no markup'
<b>CD-4000</b>	Location of deleted content is in the wrong place
<b>CD-3999</b>	Table cell para marker not marked up so wrong list number occurs
<b>CD-3997</b>	Restrict OCR processing to 1 core when CITRIX is detected
<b>CD-3996</b>	Change from 'pdfdocs compareDocs' to 'compareDocs' or 'DocsCorp compareDocs' in installer package

<b><u>CD-3995</u></b>	CD-3953 P - (Track changes) Some deleted rows are not removed when 'accept all' is done.
<b><u>CD-3994</u></b>	Files are being OCR'd twice during a comparison
<b><u>CD-3992</u></b>	CD-3945 P - When rejecting a full table row insert the empty row is being left in the document. It should be deleted
<b><u>CD-3991</u></b>	CD-3749 P - After accepting all changes in Word text is missing [Table cell cases]
<b><u>CD-3990</u></b>	CD-3482 P - Enhancement Request - compareDocs result to show that an image has been deleted and another on inserted.
<b><u>CD-3989</u></b>	Licensing code changes - checking first in HKEY_LOCAL_MACHINE\SOFTWARE\DocsCorp\pdfDocs compareDocs for valid licenses before checking XML
<b><u>CD-3988</u></b>	Update the DocsCorp PDF printer merge module. changes being made to check for valid CD licensing
<b><u>CD-3987</u></b>	Server config folder and files going to C:\ not the INSTALLDIR. Likely due to the product code changing every build. The compareDocs code needs to know the correct product code for the current build
<b><u>CD-3985</u></b>	CD-3054 P - (Document specific) Text is not being shown as inserted because of a page break on the same line
<b><u>CD-3984</u></b>	The deleted text is over-marked up, the deletion should be sameness
<b><u>CD-3983</u></b>	Added a new word compare option to support Track Changes (Live Document) in settings
<b><u>CD-3982</u></b>	CD-3910 About / Help / Licensing amalgamation into on About Window
<b><u>CD-3981</u></b>	CD-3910 Unhandled Exception UI
<b><u>CD-3979</u></b>	CD-3434 P - A visually different image is not detected as a difference
<b><u>CD-3978</u></b>	CD-3435 P - Table shading still appears when <WordTableMarkupEnableShading> is configured to false
<b><u>CD-3976</u></b>	License code changes - activating functionality or deactivating functionality
<b><u>CD-3974</u></b>	make OCR Desktop a 'feature' of the installation such that it can be optionally not installed by use of a parameter
<b><u>CD-3972</u></b>	The split paragraph should not contain the deleted list number (Split/Merge case)
<b><u>CD-3970</u></b>	The list number is not marked up correctly. Split/Merged paragraphs case
<b><u>CD-3969</u></b>	(focus issue) compareDocs UI is opening behind other open windows
<b><u>CD-3968</u></b>	[Document Specific] The list number is not marked as deleted (one sided case)
<b><u>CD-3966</u></b>	The paragraph marker is not marked as inserted for the full inserted paragraph (Engine issue)
<b><u>CD-3964</u></b>	Word ribbon - update icons
<b><u>CD-3963</u></b>	The paragraph marker is not marked as inserted for the full inserted paragraph
<b><u>CD-3962</u></b>	CD-3939 Deleted paragraph is put in the wrong position
<b><u>CD-3958</u></b>	CD-3939 [Document Specific] Missing/Additional deleted text in the comparison result
<b><u>CD-3957</u></b>	CD-3939 [Document Specific] List number is marked up as inserted incorrectly. It should be sameness
<b><u>CD-3955</u></b>	CD-3939 Comparison crashes when comparing bullets list paragraphs
<b><u>CD-3951</u></b>	CD-3939 An exception is thrown during the comparison
<b><u>CD-3949</u></b>	CD-3939 Multiple list number instances use the same abstract numbering id
<b><u>CD-3948</u></b>	CD-3939 The deleted list number is marked up as incorrect value

<b><u>CD-3947</u></b>	CD-3939 The deleted paragraph format is lost
<b><u>CD-3938</u></b>	The inserted list number is not marked up (One Sided Case - Insert)
<b><u>CD-3937</u></b>	The deleted list number is not marked up. (One Sided case - delete)
<b><u>CD-3932</u></b>	Object reference not set to an instance of an object error appears when attempting to open a document from eDocs in compareDocs
<b><u>CD-3931</u></b>	CD-3919 MRU
<b><u>CD-3926</u></b>	CD-3919 Rendering Set
<b><u>CD-3925</u></b>	CD-3919 Report types
<b><u>CD-3924</u></b>	CD-3919 Output format
<b><u>CD-3917</u></b>	Track Changes as go forward (placeholder JIRA. details are in a sub Folder of the 4.0 project)
<b><u>CD-3915</u></b>	DocsCorp PDF Printer - replaces compareDocs printer and move to Normaliser PDF creation
<b><u>CD-3913</u></b>	New Splash screen to match pdfDocs 4 based splash screen
<b><u>CD-3910</u></b>	User interface design updated to reflect product family relationship with cleanDocs AND modernise to Office 2013 level
<b><u>CD-3909</u></b>	Bind compareDocs exe's to .NET 4.5 for consistency with other 4.0 versions and to reduce testing variations of .NET versions.
<b><u>CD-3907</u></b>	Installation changes consistent with cleanDocs and pdfDocs in relation to auto-uninstallation and other elements
<b><u>CD-3889</u></b>	Image is marked as deleted when it is sameness.
<b><u>CD-3887</u></b>	Word comparison produces corrupt output document
<b><u>CD-3885</u></b>	Deleted list paragraph is not marked up - missing from the output
<b><u>CD-3883</u></b>	Images which are sameness are marked as inserted and deleted
<b><u>CD-3872</u></b>	CD-3835 P - 255 char issue - with the use of '.' in the name of the file
<b><u>CD-3871</u></b>	CD-3856 P - Comparison fails to convert documents from .doc to .docx
<b><u>CD-3864</u></b>	CD-3854 P - Word Output Reports should not be available if <DisableWordOutputExcelPPT> is enabled and one or more documents are EXCEL or PPT
<b><u>CD-3862</u></b>	Textbox content is marked up as deleted and inserted into the main body of the document.
<b><u>CD-3859</u></b>	CD-3576 P - (Document Specific) After accepting all changes in a comparison output some changes are still marked up
<b><u>CD-3858</u></b>	CD-3507 P - Object/picture markup are lost when comparison is saved as .doc file type
<b><u>CD-3853</u></b>	CD-3852 P - Report type not updating after Excel/ Ppt documents are added
<b><u>CD-3830</u></b>	CD-3580 P - Typo in compareDocs summary report
<b><u>CD-3829</u></b>	CD-3592 P - Grammatical change in dialog box
<b><u>CD-3828</u></b>	CD-3611 P - Remove 'OK' button from exception message handler as it allows user to continue with damaged compareDocs session
<b><u>CD-3827</u></b>	CD-3632 P - (document specific) List Numbering is not correct in output
<b><u>CD-3826</u></b>	CD-3689 P - 'change bars' for formatting is broken 'This file is in use by another application or user.'
<b><u>CD-3825</u></b>	CD-3694 P - Corrupted output 'one or more footnotes referenced in the document are missing or corrupt'

<b><u>CD-3824</u></b>	CD-3585 P - [Document Specific] Crash when comparing attached documents (out of memory) [Sameness]
<b><u>CD-3823</u></b>	CD-3606 P - Replace Word based 'accept revisions' step with OpenXML method
<b><u>CD-3822</u></b>	CD-3607 P - Replace Word based 'custom & server properties' removal with OpenXML approach
<b><u>CD-3821</u></b>	CD-3673 P - The OCR Options does not display the Selected Languages correctly
<b><u>CD-3820</u></b>	CD-3706 P - High memory experienced during comparison when compare textboxes is enabled
<b><u>CD-3819</u></b>	CD-3544 P - Incorrect marking up of text in a table in a header
<b><u>CD-3818</u></b>	CD-3588 P - Comparison of specific table based document is taking over an hour
<b><u>CD-3817</u></b>	CD-3608 P - Reduce time taken for DOM based 'summary report' addition (end or start)
<b><u>CD-3816</u></b>	CD-3612 P - equation in modified document causes incorrect markup
<b><u>CD-3815</u></b>	CD-3684 P - CD crashes when comparing larger documents with a large number of text boxes (Out of Memory)
<b><u>CD-3814</u></b>	CD-3693 P - Crash - "Attempted to read or write protected memory"
<b><u>CD-3813</u></b>	CD-3702 P - Comparison hangs (uses massive memory) at 'applying markup' due to header/footer processing
<b><u>CD-3810</u></b>	CD-3805 P - Total Page Number field code is inaccurate when printing to PDF
<b><u>CD-3809</u></b>	CD-3804 P - Dragging an attachment from Outlook into compareDocs which will exceed a 255 character filename fails to compare
<b><u>CD-3808</u></b>	CD-3806 P - The prompt to open the document after saving it does not come to the front.
<b><u>CD-3803</u></b>	CD-3748 CLONE - Collect statistical information about a comparison that can be used for diagnostic purposes
<b><u>CD-3802</u></b>	CD-3748 P - Add Event Logging to compareDocs to assist with troubleshooting failures
<b><u>CD-3796</u></b>	CD-3610 P - (Document Specific) Incorrect location of marked up deleted text
<b><u>CD-3794</u></b>	Unexpected deleted list numbers are appearing in the output
<b><u>CD-3793</u></b>	Deleted list numbers have incorrect styles
<b><u>CD-3792</u></b>	Inserted list numbers are not marked up.
<b><u>CD-3791</u></b>	List numbers which have different styles are marked up incorrectly
<b><u>CD-3790</u></b>	List numbers which have changed are not marked up.

<b><u>CD-3789</u></b>	Blank inserted bullet list paragraph is not marked as inserted
<b><u>CD-3788</u></b>	Incorrectly marking up list numbers within a table which have not changed (sameness)
<b><u>CD-3787</u></b>	Plain text list numbers do not get matched against true list numbers therefore do not get marked up
<b><u>CD-3786</u></b>	CD-3534 P - Ability for compareDocs to do Track Changes and Formatting reports for PDF to PDF comparison as a PDF output
<b><u>CD-3783</u></b>	CD-3609 P - Comparison issue with documents containing equations [Works if dirty flag tripped and re-saved]
<b><u>CD-3782</u></b>	CD-3587 P - 255 characters issue affecting EMAIL and PRINT CHANGES ONLY workflow
<b><u>CD-3781</u></b>	CD-3547 P - compareDocs adds hidden bookmarks to Track Changes reports
<b><u>CD-3780</u></b>	CD-3549 P - (Document specific) Table layout changed during comparison
<b><u>CD-3779</u></b>	CD-3589 P - When comparing included documents the footnotes are switching position.
<b><u>CD-3778</u></b>	CD-3620 P - Automatically bring prompt windows to the front
<b><u>CD-3777</u></b>	CD-3735 P - Add an option to compareDocs to set the "Resize shape to fit text" to better handle text boxes
<b><u>CD-3776</u></b>	CD-3736 P - (Document specific) Equation are not marked up correctly in the comparison output.
<b><u>CD-3773</u></b>	CD-3767 P - Update 'change pages only' .DOT
<b><u>CD-3772</u></b>	CD-3730 P - (Document specific) Incorrect markup of page number in document footer
<b><u>CD-3769</u></b>	CD-3703 P - 'change pages only' incorrect pages due to multiple sections on one page
<b><u>CD-3760</u></b>	CD-3233 P - (Document specific) Unable to compare documents
<b><u>CD-3759</u></b>	CD-3698 P - (Document specific) large quantity of text has been marked as inserted by unknown author
<b><u>CD-3758</u></b>	CD-3754 P - Footnote note marked as inserted
<b><u>CD-3755</u></b>	List numbers within cells of their own are not marked as changed
<b><u>CD-3752</u></b>	CD-3734 P - (Document specific) Comparison takes 15min to complete and comparison result completes with corrupt document
<b><u>CD-3751</u></b>	CD-3739 P - Add more verbose progressing messages around the comparison stage of Processing original and modified file
<b><u>CD-3750</u></b>	CD-3738 P - The phases of Process Original and Processing Modified take a long time when the document contains a large table (Extraction)
<b><u>CD-3727</u></b>	Comparison result not created for particular document
<b><u>CD-3726</u></b>	Comparison result not created for Cameron McKenna and Travers documents
<b><u>CD-3699</u></b>	CD-3678 P - (document specific) footnote delete in wrong insertion position

<b><u>CD-3696</u></b>	CD-3342 P - remove Metadata in the PDF's created by compareDocs comparison output
<b><u>CD-3695</u></b>	CD-3343 P - PDF companion is leaving 'Author' metadata. Remove that item
<b><u>CD-3676</u></b>	CD-3359 P - Emailing the comparison of two documents with Asian characters from the Word addin fails to attach Org or Mod document
<b><u>CD-3675</u></b>	CD-3358 P - Emailing the comparison of two documents with Extended ASCII characters from the Word addin fails
<b><u>CD-3657</u></b>	CD-3475 P - compareDocs is freezing. On investigation it seems that Word is open in a state that is requiring input from user
<b><u>CD-3656</u></b>	CD-3363 P - Formatting output, but single text box has track changes marked in it in error
<b><u>CD-3655</u></b>	CD-3362 P - Add 'Flatten field codes' to the Summary report settings used section
<b><u>CD-3654</u></b>	CD-3364 P - When closing the comparison report after viewing it you are not prompted to save the document when <WordOpenFromTemp> is ON.
<b><u>CD-3653</u></b>	CD-3349 P - Failed to load a unicode character named document from Word to compareDocs using ribbon
<b><u>CD-3652</u></b>	CD-3248 P - Closing CD very quickly can leave Winword.exe behind
<b><u>CD-3651</u></b>	CD-3341 P - Modified name (%FN) in <OutputFilenameFormat> is being truncated on view
<b><u>CD-3646</u></b>	CD-3333 P - Intermittent unhandled exception crash on launching compareDocs
<b><u>CD-3645</u></b>	CD-3332 P - certain insertion changes marked in Formatting output are shown in black, not in blue as expected. Other changes are blue
<b><u>CD-3643</u></b>	CD-3330 P - Turning Compatibility mode off still produces a Word DOCX document that is in Compatibility mode.
<b><u>CD-3642</u></b>	CD-3327 P - Hide the OCR Language options if no 'Perform OCR' checkboxes are checked on the OCR Options screen
<b><u>CD-3641</u></b>	CD-3326 P - Add the ability to select and remove multiple languages from the OCR Languages UI option
<b><u>CD-3638</u></b>	CD-3249 P - OCR languages option to be greyed out if no documents are to be OCR'd
<b><u>CD-3637</u></b>	CD-3196 CLONE - Add an XML setting to prevent the compareDocs Word macro from being copied.
<b><u>CD-3634</u></b>	CD-3511 P - (Document Specific) Comparison does not complete crashes with 'Unable to open Word Documents at C:\Users'
<b><u>CD-3633</u></b>	CD-3573 P - [Document Specific] Split paragraph's incorrect markup
<b><u>CD-3629</u></b>	CD-3325 P - The compareDocs Word Addin is visible in Office 2007 or above if the CompareDocs Ribbon Bar is disabled.
<b><u>CD-3628</u></b>	CD-3490 P - Comparison result incorrect around Polish kropka character
<b><u>CD-3627</u></b>	CD-3496 P - 'Blob' character not being marked up as in inserted in comparison output
<b><u>CD-3626</u></b>	CD-3390 P - Disable Word output if an Excel or PPT document is imported as the source document
<b><u>CD-3625</u></b>	CD-3147 P - (Document specific) Comparison freezes when 'Character Level' is enabled in the Compare-Word settings
<b><u>CD-3618</u></b>	CD-3114 P - CLONE - PDF comparison showing incorrect marked up text in the popups
<b><u>CD-3617</u></b>	CD-3079 P - CompareDocs taking a long time to load when loaded from Word.
<b><u>CD-3616</u></b>	CD-3040 P - Printing to compareDocs PDF printer no longer shows "Internal use only" message and results in a printer error in the spooler
<b><u>CD-3599</u></b>	Comparison document does not get checked-in to eDocs after opening it
<b><u>CD-3597</u></b>	CD-3486 P - Ship default PDF rendering sets for the new PDF mark up and make this the default rendering set for new installations

<b><u>CD-3596</u></b>	CD-3498 P - [Office 2013] Cannot select Word options after running a comparison.
<b><u>CD-3595</u></b>	CD-3361 P - Right Click "Send to > pdfDocs compareDocs" not available on Windows 8 / Windows Server 2012
<b><u>CD-3594</u></b>	CD-3369 P - Comparing WORD documents and print only pages with changes fails with VBA run-time error 4605 on Office 2013
<b><u>CD-3584</u></b>	CD-3571 P - When emailing a comparison report using the compareDocs Word Email button, if the source documents do not exist do not display a message and continue to email the document
<b><u>CD-3582</u></b>	CD-3538 P - Tables cells does not resize to show all content.
<b><u>CD-3581</u></b>	CD-3572 P - Allow print pages with changes from the compareDocs Word Toolbar to automatically create a PDF document with pages with changes only.
<b><u>CD-3569</u></b>	CD-3172 P - [Worldox] Auto convert DOCX/DOC to the correct extension format for save as new version workflow
<b><u>CD-3568</u></b>	CD-3175 P - When saving a .DOCM, .DOTX, or a .DOTM comparison output into Worldox as a New Document or a Related Document the output document cannot be opened from Worldox
<b><u>CD-3567</u></b>	CD-3035 P - Compare tool bar in worldox GX3 does not generate a comparison and either throws an error message or an exception
<b><u>CD-3566</u></b>	CD-3070 P - compareDocs right click integration is not appearing for Worldox GX3
<b><u>CD-3565</u></b>	CD-3103 P - Save as related prompts user for Word 2003 based metadata when DOCX documents were actually compared
<b><u>CD-3564</u></b>	CD-3193 P - Comparing documents as Formatting output, with <WordInsertChangeBars> set to TRUE results in Word crashing when opening the comparison report
<b><u>CD-3563</u></b>	CD-3258 P - Drag and dropping an attachment into compareDocs from a Rich Text email does not work
<b><u>CD-3562</u></b>	CD-3039 P - Dragging email attachment into compareDocs drags in the .msg instead of the attachment
<b><u>CD-3561</u></b>	CD-3357 P - FileSite right click does not appear on a x64 environment with x32 FileSite installed.
<b><u>CD-3560</u></b>	CD-3356 P - WorkSite Save as New Document Profile window does not appear when saving a document from compareDocs
<b><u>CD-3558</u></b>	CD-3041 P - Cannot run comparison when drag and dropping .MSG files from Outlook into compareDocs.
<b><u>CD-3557</u></b>	CD-3345 P - Matter Centric profile window does not appear when using 'Compare - Save into Worksite' and only FileSite is installed on the machine
<b><u>CD-3556</u></b>	CD-3124 P - The summary report at the end of a document in Landscape format breaks across two pages or prints in A3 when a document is in A4.
<b><u>CD-3555</u></b>	CD-3125 P - Summary report displays incorrectly at the end of the document
<b><u>CD-3554</u></b>	CD-3406 P - The cell markers in the Summary Report do not reflect the rendering set colour configured
<b><u>CD-3553</u></b>	CD-3337 P - Printing Comparison report using Adobe XI fails to display the 'Print' dialog
<b><u>CD-3552</u></b>	CD-3389 P - [Sharepoint] Right click 'send to compareDocs' delivers document to UI, but on running compare get 'one or more of the documents .....no longer available.....'
<b><u>CD-3550</u></b>	CD-3517 P - compareDocs unable to open documents from eDocs
<b><u>CD-3545</u></b>	CD-3530 P - A runtime error occurs when comparing two word documents on a Windows 8 environment

<b><u>CD-3543</u></b>	CD-3512 P - Emailing a comparison report repeatedly from Word creates long and incorrect directory structure
<b><u>CD-3542</u></b>	CD-3411 P - When WordViewOpenFromTemp is 'true' emailing a result document after viewing in Word does not re-open the document for the user.
<b><u>CD-3541</u></b>	CD-3412 P - Allow non compareDocs generated Word documents to be emailed from the compareDocs Word Addin
<b><u>CD-3540</u></b>	CD-3485 P - Truncation of comparison output when it is PDF (Word is OK)
<b><u>CD-3539</u></b>	CD-3455 P - compareDocs crashes if a protected document is already opened in Word
<b><u>CD-3532</u></b>	CD-3420 P - (Windows 8/Windows Server 2012) Fail to compare Outlook attachments when one of them is Text searchable PDF and output as WORD
<b><u>CD-3521</u></b>	CD-3430 P - When selecting "Changes Only" pages that have no changes made to them are being displayed
<b><u>CD-3520</u></b>	CD-3504 P - Word opens up and becomes visible when running a comparison with changes only
<b><u>CD-3510</u></b>	CD-3497 P - Summary report Page size is not predictable
<b><u>CD-3502</u></b>	CD-3476 P - Using 'Application Default' rendering set, insert list numbers and the summary page do not reflect the colours used in the report.
<b><u>CD-3494</u></b>	CD-2837 P - A deleted footnote is not marked up
<b><u>CD-3487</u></b>	CD-3450 P - (Document specific) footnotes not marked as inserted
<b><u>CD-3456</u></b>	CD-3440 P - CompareDocs still marks up tables even if table option is turned off
<b><u>CD-3454</u></b>	CD-3353 P - Receive an error during comparison after using 'Load into compareDocs from Word' with an eDocs document
<b><u>CD-3445</u></b>	CD-3432 P - Change pages only comparison is taking a long time
<b><u>CD-3444</u></b>	CD-3117 P - (Document specific) Unable to compare Word documents with SmartArt receive Unexpected Error
<b><u>CD-3441</u></b>	[Document Specific] Images are not marked up correctly
<b><u>CD-3437</u></b>	Content within a Word Content Control is not being marked up.
<b><u>CD-3436</u></b>	CD-3427 P - (Document Specific) Comparison takes a long time to compare
<b><u>CD-3429</u></b>	Deleted cross references do not link to a location (flattened) in the output document
<b><u>CD-3425</u></b>	CD-3423 P - After selecting Save into Worksite compareDocs crashes.
<b><u>CD-3404</u></b>	CD-3347 P - (Document specific) Comparing pair of documents errors with memory corruption message
<b><u>CD-3402</u></b>	CD-3354 P - Blank paragraphs which should be sameness and not included in the comparison report are marked as deleted.
<b><u>CD-3399</u></b>	CD-3148 P - (Document specific) Comparison process fails when comparing these documents
<b><u>CD-3373</u></b>	CD-3053 P - Rename eDocs DM right-click menu text from Open with... to Compare with...
<b><u>CD-3371</u></b>	CD-2923 P - Documents take a long time to compare when List Numbers are turned ON.
<b><u>CD-3352</u></b>	CD-2997 P - Comparison result fails with an unexpected error when comparing documents with different Date Objects
<b><u>CD-3344</u></b>	Selecting multiple versions in Worksite from the modified box does not enable "Compare" button
<b><u>CD-3321</u></b>	CD-3173 P - Introduce new api v1.5.1 to accommodate Prolaw method changes for production and management of document ID's.

<b><u>CD-3320</u></b>	CD-3144 P - Working right clicks in Wordox from Desktop access (32 bit machine) is lost after logging in via Citrix (64-bit).
<b><u>CD-3319</u></b>	CD-2910 P - Opening a document after it has been saved in eDocs DM5.3 says the document is already checked out.
<b><u>CD-3318</u></b>	CD-2920 P - The text "OR DMS Information" is being appended to the Original and Modified document name within the Summary Report
<b><u>CD-3317</u></b>	CD-2919 P - Default 'location' for the user on DM save window is not being respected. The first choice in the list is being chosen
<b><u>CD-3316</u></b>	CD-2918 P - The Quick Retrieve form does not respond to mouse clicks with the DM OpenFirst registry key set to 2
<b><u>CD-3314</u></b>	CD-3212 P - PDF Companion doesn't set the PDF document properties correctly
<b><u>CD-3311</u></b>	CD-3257 P - Email a comparison report from Word prepends a number to the beginning of the file.
<b><u>CD-3308</u></b>	CD-3221 P - eDocs DM 5.3.1 (and P1) - Save as New Document does not display DM Profile window
<b><u>CD-3307</u></b>	CD-3205 P - eDocs DM 5.3 P5 R1 - Checked-Out message loop after Save as New Profile and results in a zero byte file
<b><u>CD-3303</u></b>	CD-3162 P - Improve compareDocs startup speed performance
<b><u>CD-3301</u></b>	CD-3235 P - Thai needs to be removed from the list of languages valid in the XML and in the OCR Options (language chooser)
<b><u>CD-3299</u></b>	CD-3225 P - Fresh install of compareDocs fails
<b><u>CD-3298</u></b>	CD-3217 P - Textbox in the body of the document is not being marked up.
<b><u>CD-3297</u></b>	CD-3214 P - PrinterInstaller failed to upgrade the compareDocs PDF printer monitor on 32-bit env
<b><u>CD-3296</u></b>	CD-3204 P - Fresh install of compareDocs not putting down the printer on a 64bit environment
<b><u>CD-3295</u></b>	CD-3210 P - Message indicating invalid PDF companion license appears out of focus
<b><u>CD-3294</u></b>	CD-3206 P - Printing a Word document to PDF companion adds a prefix "Microsoft Word - " to the document name
<b><u>CD-3293</u></b>	CD-3207 P - Change the PDF companion Save as Progress message to be more in-line with other CD progress messages
<b><u>CD-3292</u></b>	CD-3209 P - PDF Companion not spelt correctly in the message that detect the PDF Companion license
<b><u>CD-3291</u></b>	CD-3197 P - "shortcut in c:\\" created during installation due to 'send to' path not discoverable under 'system context
<b><u>CD-3290</u></b>	CD-3201 P - 64-bit printer installer doesn't set the compareDocs printer's port to CDP after upgrade
<b><u>CD-3289</u></b>	CD-3088 CLONE - Test Monitor driver on Windows XP env
<b><u>CD-3288</u></b>	CD-3174 P - Word to Word Comparison Output as PDF fails - Word documents fail to convert to PDF [Asian characters].
<b><u>CD-3287</u></b>	CD-3088 CLONE - Licence: Validate the compareDocs licence
<b><u>CD-3286</u></b>	CD-3088 CLONE - Monitor: re-design configuration window
<b><u>CD-3283</u></b>	CD-3163 P - [document specific] last comment in PDF output (PPT to PPT comparison) is empty
<b><u>CD-3282</u></b>	CD-3088 CLONE - Update Monitor to support Citrix and Windows TS environment
<b><u>CD-3281</u></b>	CD-3088 CLONE - Save the printing stream data to a file
<b><u>CD-3280</u></b>	CD-3156 P - [Document Specific] Comparison process fails [Word Custom Properties]

<b><u>CD-3279</u></b>	CD-3157 P - A corrupt document is generated when an Excel to Excel comparison with Word Output is executed and the setting <WordRemoveDocumentProperties> is true
<b><u>CD-3277</u></b>	CD-3153 P - Toggle the Flatten Field code XML setting from the UI (as a setting)
<b><u>CD-3275</u></b>	CD-3112 P - Text boxes in Headers/Footers are not being compared
<b><u>CD-3274</u></b>	CD-3088 P - Companion PDF product - for basic PDF actions
<b><u>CD-3272</u></b>	CD-3196 P - [Installer] Add an Installer Property to prevent Word integration on install and on Active Setup.
<b><u>CD-3271</u></b>	CD-3161 P - [Installer] MSI parameter (or improvement to existing parameters) to achieve no Outlook Addin creation via installer AND Active Setup
<b><u>CD-3269</u></b>	CD-3252 P - OCR-Default.xml not being copied to the server install location
<b><u>CD-3268</u></b>	CD-3087 CLONE - Create a standalone application that accept a list of passwords, encrypt them and insert them into the compareDocs XML config file.
<b><u>CD-3267</u></b>	CD-3087 P - White list of passwords for protected PDF's
<b><u>CD-3266</u></b>	CD-3158 P - Encrypt the custom properties compareDocs writes to the output document
<b><u>CD-3265</u></b>	CD-3240 P - Emailing a document from the Word addin leaves a splash screen open
<b><u>CD-3264</u></b>	CD-3250 P - Emailing the comparison output from the compareDocs Word Tool bar does not show the Email form.
<b><u>CD-3263</u></b>	CD-3246 P - OCR language not getting read from the XML
<b><u>CD-3262</u></b>	CD-3241 P - "Save into DMS" from Word addin fails
<b><u>CD-3261</u></b>	CD-3228 P - "Save as" form appears out of focus
<b><u>CD-3259</u></b>	CD-3198 P - Optionally add OCR language chooser to the OCR Options form AND make this form always appear if any one document needs OCR
<b><u>CD-3190</u></b>	CD-2991 P - (Document specific) Comparison process fails with "The image file format has not been recognized" on AddImageFile in RunRecognition when comparing 2 PDF files
<b><u>CD-3189</u></b>	CD-3027 P - Word 2010 crashes if a comparison is run with change bars enabled
<b><u>CD-3187</u></b>	Maximum CPU Core limit to be raised from 2 to 4
<b><u>CD-3152</u></b>	CD-3138 P - Comparison process fails to complete when comparing a worksite PDF with special characters in its name
<b><u>CD-3151</u></b>	CD-3093 P - (Document specific) When comparing these documents, some foot/end note numbers are changed to roman numerals during the comparison
<b><u>CD-3150</u></b>	CD-3149 P - VB Run-time error '4248' occurs when a comparison was run from Word and outputted to email
<b><u>CD-3145</u></b>	CD-3104 P - Tables with auto numbering are not being marked up when compared
<b><u>CD-3142</u></b>	CD-2384 P - Space missing in deleted text
<b><u>CD-3140</u></b>	CD-2823 P - Issue with Pagenumbering after changing output to pdf
<b><u>CD-3119</u></b>	CompareDocs OCR Desktop Install displays version '1.0.0.1' in Add Remove Programs
<b><u>CD-3110</u></b>	CD-3105 P - Add an option via the installer to configure compareDocs to remove its %appdata% data location via Active Setup.
<b><u>CD-3109</u></b>	CD-3098 P - Add a registry key to override where compareDocs searches for its configuration settings.
<b><u>CD-3080</u></b>	compareDocs does not automatically detect Wordbox is installed.
<b><u>CD-3078</u></b>	CD-2955 P - (Document specific) Comparison is marking list numbers as inserted and messing up a table around a deletion
<b><u>CD-3047</u></b>	Setting <DMSOverride> to NetDocuments does not respect the setting.
<b><u>CD-3044</u></b>	CD-3038 P - Unable to compare Word documents which contain VSTO (OLE) objects in Word 2010

<b><u>CD-3037</u></b>	CD-2998 P - Paragraph markers still show in colour after 'accept all changes'
<b><u>CD-3034</u></b>	CD-2975 P - Track change defaults overwritten after comparison
<b><u>CD-3033</u></b>	CD-2980 P - Checked-Out Worksite documents causing Exception Error
<b><u>CD-3029</u></b>	CD-2974 P - Unable to compare Word documents which contain VSTO (OLE) objects in them.
<b><u>CD-3028</u></b>	CD-2965 P - (Document specific) Unable to compare documents with revision marks
<b><u>CD-3020</u></b>	CD-3018 P - Comparison process failed: Error code [(getError)]: 4 dcSystem
<b><u>CD-3013</u></b>	CD-2946 P - Change pages only - textbox on page on its own is not picked up as a change page in formatting, due to the textbox changes not having a bookmark added during markup
<b><u>CD-3011</u></b>	CD-2911 P - (Document specific) Comparison pushes list numbers to the far right margin
<b><u>CD-3009</u></b>	CD-2940 P - Allow changes in Headers and Footers to be found in the Changes Only Report
<b><u>CD-3007</u></b>	CD-2961 P - When attempting to compare documents from Prolaw XII, compareDocs returns an error stating that one or more of the documents cannot be found
<b><u>CD-3006</u></b>	CD-2933 P - (Document Specific) Comparison hangs on Applying markup
<b><u>CD-3005</u></b>	CD-2810 P - (Document Specific) Incorrect paragraph numbering position in output
<b><u>CD-3004</u></b>	CD-1982 P - Email document selection dialogue box appearing twice
<b><u>CD-3000</u></b>	CD-2960 P - When using the compare settings PDF output and Compare-Print enabled it does not work with Adobe Reader 10.x.x
<b><u>CD-2996</u></b>	CD-2952 P - When using 'Load into compareDocs' you are not prompted with the version selection window on a worksite environment
<b><u>CD-2993</u></b>	CD-2922 P - (Document specific) Comparison adding table with text at the top of the document
<b><u>CD-2992</u></b>	CD-2990 P - (eDocs) Loading 'attachment' into compareDocs instead of 'version' when using 'automatically load latest 2 versions' setting
<b><u>CD-2987</u></b>	CD-2907 P - (Document specific) Comparison having issue with Footnote/Endnote and adding a random section of text where a table was
<b><u>CD-2986</u></b>	CD-2957 P - Delete text is shown as uppercase
<b><u>CD-2985</u></b>	CD-2936 P - (Document specific) Comparison results shows section of text as deleted and inserted when the section is in both the Original and Modified documents
<b><u>CD-2984</u></b>	CD-2921 P - (Document specific) Comparison not showing delete and insert of a word
<b><u>CD-2983</u></b>	CD-2912 P - (Document specific) Deletions are shown with black font colour and black strike out instead of red
<b><u>CD-2982</u></b>	CD-2953 P - compareDocs main form issue with non Unicode regional settings set to PRC (China)
<b><u>CD-2954</u></b>	compareDocs is not respecting the Worksite 9.0 Enhanced forms registry keys resulting in incorrect Import and Save into forms
<b><u>CD-2943</u></b>	Right click from Worksite 9.0 to compareDocs is not visible
<b><u>CD-2678</u></b>	Browsing from compareDocs, worksite search folder only returning 512 document limit

## 4.5 Service Pack 4

Key	Summary
<b><u>CD-3361</u></b>	Right Click "Send to > pdfDocs compareDocs" not available on Windows 8 / Windows Server 2012

<b>CD-3369</b>	Comparing WORD documents and print only pages with changes fails with VBA run-time error 4605 on Office 2013
<b>CD-3420</b>	(Windows 8/Windows Server 2012) Fail to compare Outlook attachments when one of them is Text searchable PDF and output as WORD
<b>CD-3498</b>	[Office 2013] Cannot select Word options after running a comparison.
<b>CD-3530</b>	A runtime error occurs when comparing two word documents on a Windows 8 environment

## 4.6 Service Pack 3 Update 5

Key	Summary
<a href="#"><u>CD-3360</u></a>	CD-3039 P - Dragging email attachment into compareDocs drags in the .msg instead of the attachment
<a href="#"><u>CD-3386</u></a>	CD-3041 P - Cannot run comparison when drag and dropping .MSG files from Outlook into compareDocs.
<a href="#"><u>CD-3273</u></a>	CD-3193 P - Comparing documents as Formatting output, with <WordInsertChangeBars> set to TRUE results in Word crashing when opening the comparison report
<a href="#"><u>CD-3313</u></a>	CD-3258 P - Drag and dropping an attachment into compareDocs from a Rich Text email does not work
<a href="#"><u>CD-3388</u></a>	CD-3380 P - CompareDocs fails to open comparison report when Include 'Changes only' selected
<a href="#"><u>CD-3408</u></a>	CD-3124 P - The summary report at the end of a document in Landscape format breaks across two pages or prints in A3 when a document is in A4.
<a href="#"><u>CD-3409</u></a>	CD-3125 P - Summary report displays incorrectly at the end of the document
<a href="#"><u>CD-3385</u></a>	CD-3345 P - Matter Centric profile window does not appear when using 'Compare - Save into Worksite' and only FileSite is installed on the machine
<a href="#"><u>CD-3383</u></a>	CD-3357 P - FileSite right click does not appear on a x64 environment with x32 FileSite installed.
<a href="#"><u>CD-3384</u></a>	CD-3356 P - WorkSite Save as New Document Profile window does not appear when saving a document from compareDocs
<a href="#"><u>CD-3387</u></a>	CD-2960 P - When using the compare settings PDF output and Compare-Print enabled it does not work with Adobe Reader 10.x.x
<a href="#"><u>CD-3401</u></a>	CD-2997 P - Comparison result fails with an unexpected error when comparing documents with different Date Objects
<a href="#"><u>CD-3405</u></a>	CD-3347 P - (Document specific) Comparing pair of documents errors with memory corruption message
<a href="#"><u>CD-3389</u></a>	[Sharepoint] Right click 'send to compareDocs' delivers document to UI, but on running compare get 'one or more of the documents .....no longer available.....'
<a href="#"><u>CD-3403</u></a>	CD-3354 P - Blank paragraphs which should be sameness are marked as deleted
<a href="#"><u>CD-3406</u></a>	The cell markers in the Summary Report do not reflect the rendering set colour configured
<a href="#"><u>CD-3337</u></a>	Printing Comparison report using Adobe XI fails to display the 'Print' dialog

## 4.7 Service Pack 3 Update 4

Key	Summary
<a href="#"><u>CD-3231</u></a>	P - eDocs DM 5.3 P5 R1 - Checked-Out message loop after Save as New Profile and results in a zero byte file
<a href="#"><u>CD-3238</u></a>	P - eDocs DM 5.3.1 (and P1) - Save as New Document does not display DM Profile window

## 4.8 Service Pack 3 Update 3

Key	Summary
<a href="#"><u>CD-3100</u></a>	P - compareDocs is not respecting the Worksite 9.0 Enhanced forms registry keys resulting in incorrect Import and Save into forms
<a href="#"><u>CD-3101</u></a>	P - Right click from Worksite 9.0 to compareDocs is not visible
<a href="#"><u>CD-3102</u></a>	Worldox - Word document extension mismatch (DOC instead of DOCX) on save as new version causes error when opening resultant document
<a href="#"><u>CD-3103</u></a>	Worldox - Save as related prompts user for Word 2003 based metadata when DOCX documents were actually compared
<a href="#"><u>CD-3035</u></a>	Compare tool bar in worldox GX3 does not generate a comparison and either throws an error message or an exception
<a href="#"><u>CD-3070</u></a>	compareDocs right click integration is not appearing for Worldox GX3

CD-3099 P - compareDocs does not automatically detect Wordox is installed.

## 4.9 Service Pack 3 Update 2

Key	Summary
<a href="#">CD-3022</a>	[Worldox] compareDocs right click integration is not appearing.
<a href="#">CD-2935</a>	CD-2903 P - Compare tool bar in worldox does not create comparison

## 4.10 Service Pack 3 Update 1

Key	Summary
<a href="#">CD-2989</a>	"Side by Side" view for PDF comparisons doesn't show side by side when change detail report is appended to the comparison
<a href="#">CD-2978</a>	Mark-up formatting generated using new PDF rendering sets are incorrect
<a href="#">CD-2977</a>	Creating a new PDF rendering set loads up the settings of the currently selected Rendering set and not the default settings for a new set
<a href="#">CD-2973</a>	Detail report does not get generated when using new PDF rendering sets
<a href="#">CD-2971</a>	Legacy Settings become enabled after saving some changes in a PDF rendering set
<a href="#">CD-2970</a>	"Show Popup" is OFF by default for Caret Deletions in the Consolidated Rendering set
<a href="#">CD-2969</a>	Changes made to a PDF rendering set do not get respected
<a href="#">CD-2968</a>	"Save" button is disabled when creating a new PDF rendering set
<a href="#">CD-2967</a>	Deleting a rendering set does not refresh the compareDocs interface and remove it in the list of rendering sets available when running the comparison (UI refresh issue)
<a href="#">CD-2966</a>	When creating new PDF rendering set, all available settings are disabled
<a href="#">CD-2963</a>	Selecting a Server render set (which is legacy) displays the new PDF mark up changes.
<a href="#">CD-2962</a>	Changing a custom PDF render set changes all custom PDF render sets
<a href="#">CD-2949</a>	PDF comparison does not respect the Rendering set selected
<a href="#">CD-2942</a>	hide the legacy tab in PDF Render set options for new render sets being created.
<a href="#">CD-2891</a>	[PDF] Option to have Summary report appended to start, end or as separate document (in line with Detailed report options)
<a href="#">CD-2890</a>	[PDF] Option to turn off PDF comparison Summary page
<a href="#">CD-2887</a>	[PDF] implement test for hidden text on a PDF (indicating an OCR'd document), to then default to better options for PDF to Word as part of comparison
<a href="#">CD-2886</a>	[PDF] option to render PDF markup differently
<a href="#">CD-2885</a>	[PDF] option for Modified document to be on the right hand side (in a side-by-side comparison)
<a href="#">CD-2884</a>	Add Double Strikethrough option to the 'moved from' Word Formatting rendering set option
<a href="#">CD-2882</a>	Add <DMAAllowEditableInput> to the master XML with its default value
<a href="#">CD-2877</a>	The option to enable delimiters in the PDF rendering sets is not enabled and shows a C
<a href="#">CD-2876</a>	The Master XML file must be updated to include the setting WordOpenAndRepair
<a href="#">CD-1645</a>	Excel Tables that are embedded in word documents are not compared in compareDocs
<a href="#">CD-763</a>	[WordML] Add support for Word 2007 Equations

## 4.11 Service Pack 3

Key	Summary
<a href="#">CD-2785</a>	CD-2781 P - [Document Specific] Comparison hangs when List Numbers are turned ON.
<a href="#">CD-2854</a>	CD-2828 P - [Document Specific] Comparison Hangs when List Numbers are turned ON.
<a href="#">CD-2848</a>	CD-2829 P - Table is missing deletion mark-up within certain cells
<a href="#">CD-2844</a>	CD-2662 P - [Document Specific] Footnote Issue: Correct mark-up but readability issues compared with DV
<a href="#">CD-2811</a>	CD-2800 P - [Document Specific][Paragraph Matching] Deleted paragraph matched to a list number paragraph.
<a href="#">CD-2778</a>	CD-2728 P - [Document Specific] compareDocs creates a corrupted document.
<a href="#">CD-2853</a>	CD-2808 P - [Document Specific] Incorrect Table comparison
<a href="#">CD-2771</a>	CD-2622 P - [Document Specific] Document corruption when Track Changes is turned ON.
<a href="#">CD-2815</a>	CD-2789 P - [Document Specific + ENV Specific] Using Office 2003 a deleted sentence at the bottom of the paragraph appears at the top in the comparison report.
<a href="#">CD-2842</a>	CD-2841 P - Changes only, when combined with Track changes, is sometimes missing pages in Word 2003
<a href="#">CD-2786</a>	CD-2780 P - Character level missing mark-up
<a href="#">CD-2830</a>	CD-2646 P - Footnotes causing the comparison to take a long time.

<a href="#">CD-2767</a>	CD-2644 P - Comparison output is corrupt on Word 2010
<a href="#">CD-2768</a>	CD-2647 P - Changes only result not showing pages with changes, and showing pages without changes
<a href="#">CD-2732</a>	CD-2649 P - Add new setting to ignore list numbers on the modified document in paragraph matching logic
<a href="#">CD-2726</a>	CD-2596 P - [Document Specific] <WordCompareFieldCodes> is maintaining the code but removing the field.
<a href="#">CD-2663</a>	CD-2514 P - [Document Specific] Text within a cell is being marked as Moved (or inserted and deleted) when the text has not moved.
<a href="#">CD-2878</a>	The colour options for Moves in a rendering set for Formatting are not getting applied correctly for some colours
<a href="#">CD-2734</a>	CD-2677 P - CompareDocs is not respecting the 'Move' colour in its rendering set when doing a Word to Word compare.
<a href="#">CD-2857</a>	CD-2856 P - Comparing .MSG files results in an error message and compareDocs crash
<a href="#">CD-2859</a>	CD-2858 P - Comparing .MSG files that have been dragged and dropped directly from Outlook does not work
<a href="#">CD-2634</a>	CD-2378 P - List numbers get removed/re-ordered when you compare save and re-open the document.
<a href="#">CD-2797</a>	CD-2615 P - Field codes which are part of content which have been marked up do not get flattened.
<a href="#">CD-2795</a>	CD-2614 P - Field codes are not being flattened if the document contains track changes.
<a href="#">CD-2770</a>	CD-2629 P - Deleted content is being split at inside a word
<a href="#">CD-2794</a>	CD-2501 P - Deleted paragraph with blank list number loses formatting when imported to modified document.
<a href="#">CD-2764</a>	CD-2661 P - [Document specific] Moves not marked up correctly, show as inserts/deletions
<a href="#">CD-2594</a>	CD-2583 P - [Document Specific] Table mark-up is causing inserted paragraphs not to get marked up.
<a href="#">CD-2769</a>	CD-2616 P - Character level output showing incorrect output
<a href="#">CD-2763</a>	CD-2656 P - Certain Paragraph markers appearing in colour when using black only rendering set
<a href="#">CD-2798</a>	CD-2791 P - Add <WordCompatibilityMode> to the master config file. Default value is True
<a href="#">CD-2766</a>	CD-2648 P - The summary/detail report paper size is not respecting the comparison document's paper size when appended as part of the document.
<a href="#">CD-2717</a>	CD-2711 P - Add option to remove document properties from the output word document
<a href="#">CD-2761</a>	CD-2750 P - compareDocs comparison progress form losses focus.
<a href="#">CD-2850</a>	CD-2849 P - Sending a local document to compareDocs via the compareDocs Word toolbar fails on an eDocs environment
<a href="#">CD-2765</a>	CD-2645 P - DMS: Quick version selection - manually changing version numbers for comparison
<a href="#">CD-2851</a>	CD-2623 P - NetDocuments: pdf comparison failing on import
<a href="#">CD-2818</a>	CD-2813 P - [iManage] Load into CompareDocs from Word does not work if multiple servers are registered.
<a href="#">CD-2852</a>	CD-964 P - PDF documents containing Asian characters in the file name cannot be compared using compareDocs
<a href="#">CD-2806</a>	CD-2802 P - Right Click Send To does not appear when logged in as a different user
<a href="#">CD-2657</a>	CD-2482 P - Add installer property which when set does not run user specific configuration.
<a href="#">CD-2640</a>	CD-2624 P - When Outlook is closed comparing and emailing a document fails.
<a href="#">CD-2744</a>	CD-2738 P - [Environment Specific] compareDocs on startup is creating multiple instances of Winword.exe
<a href="#">CD-2745</a>	CD-2724 P - When running multiple consecutive comparisons, the client receives a RPC_E_SERVERCALL_RETRYLATER com exception.
<a href="#">CD-2843</a>	CD-2826 P - Selecting Pages with Changes Only comparison output is missing pages which contain changes.
<a href="#">CD-2807</a>	CD-2801 P - Viewing a Word comparison does not show the document as a New document.
<a href="#">CD-2762</a>	CD-2748 P - Change the comparison reports so they are not produced in Compatibility Mode.
<a href="#">CD-2855</a>	CD-2748 Make compatibility mode optional
<a href="#">CD-2817</a>	CD-2816 P - When emailing a comparison document from Word an AutoOpen macro is triggered
<a href="#">CD-2642</a>	CD-2627 P - Lewis Silkin integration require that custom properties in the source Word document being compared be removed before the final comparison is presented.
<a href="#">CD-2793</a>	CD-2792 P - When OpenAndRepair is ON and the source document(s) contains track changes Word displays a prompt to save the document.
<a href="#">CD-2804</a>	CD-2790 P - Pages with changes only report, has repeated pages and pages without changes

## 5 Contact Information

To log a support request, please visit the DocsCorp website and click on Support at the top of the page. Log a [Support Request](#).

Alternatively, you may email [support@docscorp.com](mailto:support@docscorp.com), and include:

- Product Name
- Product Version
- A description of the problem, such as the steps to repeat the issue.
- A screenshot, description or text of the error message if applicable.
- Application Log files, which are located here: %AppData%\DocsCorp
- Priority (High Medium Low)

If you have suggestions for improving the product, please email [enhancements@docscorp.com](mailto:enhancements@docscorp.com).
